PRÉSENTEZ VOUS

Hello! I'm Violeta, an
illustrator from Barcelona.

Dalya Baron

A Bit About Me

I am a graduate student at the Tel Aviv University Astrophysics Department. I am mostly working on active galactic nuclei and their role in galaxy evolution, and on machine learning algorithms and their application to astronomical datasets.

The *Creative* Journey

Behind The

My journey as a designer is driven by a deep-seated passion for continuous growth and creative exploration. I approach every project as an opportunity to merge artistic vision with technical skill, ensuring that the process is as thoughtful as the final product. This commitment allows me to consistently challenge creative boundaries and deliver solutions that are both innovative and effective.

For me, design transcends the role of a career; it is a powerful medium for creating work that resonates and makes a tangible, positive impact. The ultimate goal is to bring fresh ideas to life in meaningful ways, crafting visual experiences that connect with audiences and achieve their intended purpose. I am dedicated to building a portfolio of impactful work, one project at a time.

Hi, I'm Stéphanie, a **UX Researcher** & **Product Designer**.

Great design is where user needs and business goals meet. I seek to understand both to design **user-centred**, **inclusive** and **accessible** products and services, mostly in **Enterprise UX**.

I also **write** articles on my blog, **teach** design and **speak** at conferences & workshops events all around the world. And I recently wrote [a book on User Journey Maps](#).

I also enjoy drawing fun little things, riding my bike in Luxembourg countryside, exploring delicious cooking recipes and playing video games. I'm sadly better at keeping my game teammates alive than most of my plants. But, I try. 🌱

I'm **an expert**.

I spent the last decade helping clients in different industries (banking, financial, automotive, healthcare, press, travel, etc.) **delivering successful projects to their users**, all the way from strategy to the final products and services. I specialise in:

<https://stephaniewalter.design/>

designer

Product designer specialising in UI design and design systems.

<coder>

Front end developer who writes clean, elegant and efficient code.

À PROPOS DE MOI

EN QUELQUES MOTS

Hello! Je suis Ornella, webdesigner. Forte d'une récente formation en webdesign et d'une solide expertise en conception UX/UI, j'aime collaborer sur différents projets et créations. Mon expérience inclut la conception de mises en page attrayantes, la création d'éléments graphiques, et la gestion de projets de sites web.
